

The numbers are staggering. Payment fraud is everywhere.

73%

of organizations were targets of payments fraud in 2015

According to the 2016 AFP Payments Fraud and Control Survey:

From October 2013 to February 2016, reported losses from **Business Email Compromise (BEC)** were over

\$2.3 billion

71%

of organizations subject to payments fraud were victims of **check fraud**

48%

of companies reported **wire fraud incidents**, which is up dramatically from 14% in 2013

Data breach statistics

50%

of respondents open email and click on **phishing links** within the first hour

95%

of malware showed up for less than a month, and 4 out of 5 only lasted a week

99.9%

of vulnerabilities were exploited over a year after they came out
