

The 2020 KeyBank Financial Wellness Survey

The road to financial wellness is rarely linear. Inevitably, there will be setbacks, which often present new opportunities to course correct. KeyBank designed the Financial Wellness Survey to understand the mindset of consumers as they reflect on their financial journey over this past year. Specifically, the survey explores the financial faux pas – or money mistakes – Americans faced, the severity of those missteps and the strategies they are most likely to take as they move forward in the year ahead.

About the 2020 KeyBank Financial Wellness Survey

KeyBank partnered with Schmidt Market Research to survey 1,200 consumers nationwide on topics related to financial faux pas. Respondents were 18 to 70 years old with a checking or savings account who have sole or shared responsibility for household financial decisions. Survey responses were collected from October 14-21, 2019.

Summary of respondents:

Gender:

Male: 53%
Female: 47%

Age:

<35 years: 25%
35-49 years: 38%
50+ years: 37%
