How to Un-Install Device Drivers

1. Select the following icon in the lower left corner on your Windows Start Menu.

2. Select “Control Panel”.
3. Select: 

4. Find your specific scanner’s driver program:
   - For example, Digital Check Teller Scan – “TellerScan 32-bit and 64-bit Combined Driver version 12.00”
   - Note: Each scanner will have its own name listed, starting with the brand name.

5. Right-click and select “Un-Install”
